## HANNON PLUMPING COLOUR LIPGLOSS

- NOVEMBER 24, 2011  
POSTED IN: BEAUTY, MAKE-UP, SLIDESHOW

The latest product offering from Hannon is his Plumping Colour Lip Gloss. These long-lasting glosses contain extracts from the Brazilian Fan Plant, which stimulates blood flow in your lips, making them appear plumper. Silicones have also been added to soothe and moisturise the delicate skin on your lips. You will feel a slight tingling for a few moments after applying, but this just means that it is working, and will dissipate after a while.

They are available in 6 gorgeous shades: Rosebud, Hollywood, Berry Mink, Coral and Candy Sugar. The retail for R95 each, and are available at selected hair and beauty salons, or online at [www.hannon.co.za](http://www.hannon.co.za)
